
Welcome to the July 11th edition of the CATalog.

TODAY Spotlight on: Comprehensive Cancer Control (CCC) Webinar

Essential Elements for Integrating CCC Strategies into Clinical Practice for Behavioral Health Populations

Tuesday, July 11, 2017 – 1:00pm-3:00pm

Learn about the impact of a cancer diagnosis for people with behavioral health conditions, opportunities for providers to partner with CCC coalitions, and strategies to help cancer patients with behavioral health issues and their families' access valuable community-based resources. Register [here](#).

Cancer News

Improving Cancer Control in Rural Communities: Next Steps

NCI Cancer Currents Blog - 07/07/2017

Studies continue to show disparities in cancer outcomes for people who live in rural parts of the United States. NCI's Dr. Robert Croyle explains how the institute is working with multiple partners to better understand and address these disparities. Read more [here](#).

Cancer Deaths Higher in Rural America, CDC Reports

HealthDay News - 07/06/2017

Cancer death rates are declining overall in the US, but they are higher and falling more slowly in rural America, a new CDC report shows. Agency head calls persistent geographic gap a 'significant public health problem.' Read more [here](#).

Lymph Node Metastases May Not Always Be the Source of Cancer's Spread

Medical Xpress - 07/06/2017

A study led by Massachusetts General Hospital (MGH) investigators has found that the traditional model for the spread of carcinoma (from the

primary tumor, to nearby lymph nodes, to other organs) may not apply in all cases. Read more [here](#).

Smoking on the Rise in Movies Aimed at Young: Study

HealthDay News - 07/06/2017

The number of youth-focused films showing smoking rose sharply between 2010 and 2016. According to CDC's *Morbidity and Mortality Weekly Report*, 46% of movies featuring smoking during this time period were youth-rated; smoking scenes in movies rated PG-13 went from 564 in 2010 to 809 in 2016. Read more [here](#).

New Findings on Influence of High-Fat Diet on Colorectal Cancer

Medical Xpress - 07/06/2017

Poor diet is associated with 80% of colorectal cancer cases, but the exact pathways by which diet leads to cancer are not known. In a newly published study, Cleveland Clinic researchers have identified a specific molecular pathway that plays a key role in the link between a high-fat diet and tumor growth in the colon. Read more at [here](#).

Can You Recognize the Signs of Skin Cancer?

HealthDay News - 06/28/2017

Using the ABCDE rule of skin cancer can help identify potential problems, including the most deadly form of skin cancer, melanoma, says a news release from Fox Chase Cancer Center. Read more [here](#).

E-Cigarettes Lead to 'Real' Smoking by Teens: Review

HealthDay News - 06/27/2017

Teens and young adults who use electronic cigarettes are almost four times as likely as their non-vaping counterparts to begin smoking traditional cigarettes, suggests a new review the Dartmouth Institute for Health Policy and Clinical Practice. But one public health expert questions whether the reported association is valid. Read more [here](#).

Trainings, Events, and Educational Opportunities

Webinar: Tools of the Trade- Multi-component Interventions to Increase Cancer Screening

Tuesday, July 18, 2017 - 1:00pm-2:00pm

The July NCI Research to Reality webinar will spotlight the systematic review evidence underlying multicomponent interventions to increase cancer screening and describe how New York State has used this approach to reduce its cancer burden. Register [here](#).

Webinar Series: Using Community Health Workers and Volunteers to Reach Complex Needs Populations

Four Thursdays starting August 10, 2017 – 2:00pm – 3:00pm

The American Cancer Society, through a cooperative agreement with CDC and in partnership with the National Association of Chronic Disease Directors, is offering a *Digital Storytelling Workshop* to help you create digital Comprehensive Cancer Control success stories. Register [here](#).

This one-hour YouTube webinar reviews ACIPs two-dose recommendation for HPV vaccine, strategies for communicating with parents, and practice-level resources. Watch it [here](#).

Resources

Pro-vaccine customizable photo frames for Facebook

Voices for Vaccines has developed several pro-vaccine frames for Facebook, the little logos that people can affix to their profile pictures. Frames are un-branded to encourage everybody to use them. Click [here](#) and search for “Votes for Vaccines.”

New Data Visualizations Tool

CDC’s new Data Visualizations tool makes it easy for anyone to explore and use the latest official federal government cancer data from the USCS Web-based report. Click [here](#) to access the tool.

Video: Steps to Find a Clinical Trial

This new video introduces NCI’s six-step process that patients or caregivers can use to find cancer clinical trials that may be right for them. Click [here](#) to view it.

Video—Update on US Cancer Survival: Did You Know?

The National Cancer Institute's new video illustrates factors that affect cancer survival rates, improvements in screening and treatment, and the 5-year survival rates for several types of cancer. Click [here](#) to view it.

Funding Opportunities

Stand Up To Cancer (SU2C), 'Dream Team' Grant

SU2C and the American Association for Cancer Research invites Letters of Intent for a new \$10 million "Dream Team" grant. Letters of intent are due 9/5/17. The team of investigators must include laboratory and clinical researchers, senior and/or young investigators, and senior scientists who have not worked together. Click [here](#) for more info.

Funderburg Research Award in Gastric Cancer

The American Gastroenterological Association Foundation is inviting applications for the 2016 Funderburg Research Award in Gastric Cancer. Applications are due 8/4/17. A single grant of up to \$100,000 over two years is available. Applicants must hold a full-time faculty position at an accredited institution in North America. AGA membership is required at the time of application submission, and women and minority investigators are strongly encouraged to apply. Click [here](#) for more info.

Thanks for reading, and please email [Alyssa Rubin](#) if you have any news, trainings, or funding opportunities you would like included in the next CATalog.
